EDUCATION

Vellore Institute of Technology, Bhopal <i>Bachelor of Technology in Computer Science and Engineering</i>	8.35 Aug 2022 – Present
Karim City College, Jamshedpur <i>Class XII</i>	81 Aug 2019 – May 2021
Manusmuria High School, Manusmuria <i>Class X</i>	92.8 Aug 2017 – May 2019

TECHNICAL SKILLS

Programming Languages: Python
Backend Frameworks: Django, Flask, FastAPI, RESTful API Development
Databases: MySQL, SQLite
Backend Concepts: API Design, Request Handling, File Processing, Authentication Basics
Tools & Version Control: Git, GitHub

PROJECTS

Image Steganography Web Tool <i>Python (Backend), Flask, OpenCV, NumPy</i>	Jan 2025 – April 2025
- Built a Python-based backend to handle secure image upload, processing, and response workflows. - Implemented LSB steganography algorithms for server-side data embedding and extraction. - Optimized image processing using OpenCV and NumPy for efficient bit-level operations. - Exposed REST-style endpoints for encoding and decoding images.	
Secure File Processing API <i>Python (Backend), FastAPI, JWT</i>	Aug 2024 – dec 2024
- Developed a Python-based REST API for secure file upload, validation, and processing. - Implemented JWT authentication to restrict access to authorized users. - Handled server-side file storage and metadata management.	

ACHIEVEMENTS AND EXTRACURRICULAR

Google Cloud Arcade Facilitator <i>Google Cloud</i>	July 2025 - Present
- Nominated among 150+ global students as Google Cloud Arcade Facilitator for the 2024 cohort. - Conducted hands-on workshops and weekly doubt-clearing sessions for 500+ learners.	
Open Source Contributor <i>Hacktoberfest 2024</i>	Oct 2024
- Made 4+ pull requests to open-source GitHub projects by fixing bugs and updating documentation. - Worked with project maintainers and contributors from around the world to solve real-world coding issues. - Improved code readability, project documentation, and beginner-friendly features.	

VOLUNTEER EXPERIENCE

Core Member, IEEE Student Chapter – VIT Bhopal	Sep 2023 - Present
- Organized and coordinated technical events, workshops, and hackathons as part of the core team. - Facilitated collaboration with faculty and peers to drive innovation-focused student engagement.	

CERTIFICATIONS

JPMorgan Software Engineering Job Simulation <i>Forage</i>	July 2024
- Simulated a real-world software engineering environment by working with JPMorgan's internal tools and APIs. - Worked on backend-oriented tasks involving API interaction, data handling, and debugging in a controlled enterprise setting. - Applied core SDE principles such as problem analysis, code reliability, and version-controlled development workflows. Skills: API Interaction, Backend Fundamentals, Debugging, Git-based Workflow, Problem Solving
