

# SOMPA BHUI

+91 6203665630 | bhuissompa001@gmail.com | LinkedIn | GitHub | LeetCode

## EDUCATION

**Vellore Institute of Technology - CGPA: 8.47/10**

*Bachelor of Technology in Computer Science and Engineering*

**Karim City College - 81%**

*Class XII*

**Manusmuria High School - 92.8%**

*Class X*

Bhopal, Madhya Pradesh

*Aug 2022 - May 2026*

Jamshedpur, Jharkhand

*Aug 2019 - May 2021*

Manusmuria, Jharkhand

*Aug 2017 - May 2019*

## TECHNICAL SKILLS

**Programming:** Python, C++, SQL, JavaScript   **Frontend:** HTML5, CSS, React.js   **Backend:** Flask, Node.js, Express.js, REST APIs   **Databases:** MySQL, SQLite, MongoDB   **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Linux/Unix  
**Core CS:** Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems   **Concepts:** Problem Solving, API Integration, Multi-Tier Architecture, Scalable Systems, Software Development

## EXPERIENCE

**SDE Intern at DigiCaptain Technologies** | *Node.js, Express.js, MongoDB*

Mar 2025 – Present

- Designed and developed scalable backend services and RESTful APIs to support high-quality web applications.
- Worked on an SEO analytics platform (Google Rank Checker) to process real-time keyword ranking data using third-party APIs.
- Improved system performance and reliability by optimizing API request handling and data processing workflows.
- Contributed to the development of the company's CRM platform by building modular backend components and integrating dynamic application features.
- Collaborated with cross-functional teams to understand broadly defined requirements, resolve technical challenges, and deliver reliable software solutions.

## PROJECTS

**Organ Donation Website** | *React.js, Node.js, Express.js, MongoDB*

Dec 2025 – Jan 2026

- Designed and developed a full-stack web platform to connect organ donors, recipients, and healthcare organizations.
- Built a responsive React.js frontend and integrated it with backend APIs to support smooth user interaction and data flow.
- Implemented RESTful backend services using Node.js and Express.js to manage donor, recipient, and request-related workflows.
- Used MongoDB to design and manage structured application data, enabling efficient storage and retrieval of user and donation records.

**StegoVault** | *Python, Flask, OpenCV, NumPy, HTML5, CSS*

Jan 2024 – Mar 2024

- Developed a Flask-based web application to securely hide and extract text messages within images using LSB steganography.
- Implemented pixel-level encoding and decoding algorithms to embed data while preserving image quality.
- Optimized image processing workflows using OpenCV and NumPy for efficient pixel manipulation and data extraction.
- Built a responsive frontend using HTML5 and CSS and integrated it with backend processing workflows for seamless user interaction.

## ACHIEVEMENTS AND EXTRACURRICULAR

**Google Cloud Arcade Facilitator** | *Google Cloud*

July 2025 – Present

- Mentored 500+ learners through hands-on workshops and weekly technical doubt-clearing sessions.

**Open Source Contributor** | *Hacktoberfest 2024*

Oct 2024

- Contributed 4+ pull requests and resolved 10+ GitHub issues across open-source projects.

**Google Launchpad Upskilling Program** | *Google*

Feb 2025 – July 2025

- Participated in technical learning, mentorship, networking, and career development sessions.

**Core Member, IEEE Student Chapter – VIT Bhopal**

Sep 2023 – Present

- Organized technical events, workshops, and hackathons while collaborating with faculty and peers.

## CERTIFICATIONS

**IBM Blockchain Certification** | *IBM (Blockchain Basics, Smart Contracts, Distributed Ledger)*

Feb 2025 – Apr 2025
